SEEKING ALLIANCE AREA HAMS

ZERO BEAT

VOLUME 7 NO. 5

MAY 1993

Some common sense operating tips

By Dick Dager KC8OU

In our enthusiasm for our hobby, it is common, while on the air, to rattle on with a ham friend about every day things.

However, it is easy to forget that there are countless people listening on scanners, short wave radios, and, unfortunately, some stolen rigs. In that light, consider some of the following on your next transmission:

DO NOT use the last names of your contacts. All that is necessary are their calls and first names. Why? Hams in this area have been contacted by total strangers who have picked up their identity, their residential location and a lot more about them than they care for strangers to know. Mail and phone calls have been received and some have even been visited by their unknown listeners without an invitation.

ZERO BEAT: The art of all parties being on the same frequency.

So far, nothing derogatory has come of any of it, but consider the potential.

DO NOT give phone numbers, repeater codes or repeater functions over the air. The touch tone kerchunkers will try whatever they hear you tell someone! Tell a person requesting info you will bring up the patch for them and suggest you make contact by phone for passing any additional info.

DO NOT inform all listeners that a person being called is out of town or on vacation. I recently heard during a net, when a ham was called and no response -- "Oh, ol' Joe Brown W8XYZ is in Florida and won't be home for two weeks yet." Any larcenous crackpot listening now knows he has two weeks to burglarize the place. The same goes for persons temporarily in the hospital. Don't belabor the point on the air. Use the twisted pair. Many spouses are left alone and are not home for many hours while visiting.

DO NOT attempt to take issue with someone who is obviously creating malicious interference. Make every effort to determine from where the signal is coming, but ignore the activity. These people thrive on the argument they get from others. If you can't beat 'em, don't join 'em ... **IGNORE 'em!** Without confrontation, the antagonist will usually go away.

DO be willing to lend a hand to a new ham. Be helpful, not critical about an occasional mistake or an improper procedure. Consider being an "Elmer."

DO respond to a ham who is "listening on frequency." Quite often, it is an out-of-towner who is seeking information, needs directions or is just plain bored of sitting in a motel room somewhere and wants to chat.

One of the most common complaints of hams who are traveling is the lack of response from local hams. The travelers do not feel welcome. Put yourself in their position.

Consider how nice it would be to have a "Ham Fraternity" brother or sister respond to your inquiry in a strange location or situation.

DO make every effort to be available for Public Service activities which request Amateur Radio for their communications. Not only does Amateur Radio get a positive reaction from the public, most of the activities are rewarding and allow us to use our skills and equipment for the benefit of ourselves and others.

Amateur Radio can only be what you make it. It can be an enjoyment or a hassle. It can be discouraging or very rewarding.

Plain old common sense and consideration of others, in most of our daily activities will keep us on a positive plane and out of trouble.

HAMFESTS AND SUCH

MAY 16

The Triple States Radio Amateur Club Hamfest will be Sunday, May 16 from 8 a.m. to 3 p.m. at White Palace in Wheeling Park, Wheeling, WV. Admission is \$3 at the gate. All women and kids under 17 are free. 16 major awards. Talk-in on 146.91 or 146.715. (John Myers WX8G will give a seminar on fox hunting techniques. Let's all try to be there early!!!)

MAY 23

The 20/9 Radio Club will hold its ninth annual hamfest at the Canfield Fairgrounds on Sunday, May 23, from 8 a.m. to 4 p.m. Mobile check-in is on the 147.315, 443.225 or 223.55 repeaters. Main prize is an Icom IC-735 transceiver. Admission is \$4.00 at the gate and parking is free. Dealer setup begins at 6:30 a.m. Inside tables are \$8 per 8-ft. table,

and gate admission is not included.

For more info, contact: Don Stoddard N8LNE, 42 S. Whitney Ave., Youngstown, Ohio 44509 (793-7072) or Dave Mellott KE8KT, 2895 Penny Lane, Austintown, Ohio 44515 (793-0816).

NEW GUIDELINES

The FCC has proposed changing its guidelines for evaluating environmental RF radiation, to reflect the guidelines adopted in 1992 by the American National Standards Institute and the Institute of Electrical and Electronic Engineers, Inc.

The new guidelines differ significantly from those they replace, the commission said. For example two tiers of exposure levels are now recommended, one for controlled environments, and another, generally more restrictive, for uncontrolled environments. Also, new restrictions are

placed on currents induced in the human body by RF fields below 100 MHz.

Another significant change is the imposition of stricter limitations on automatic exclusions for low-power devices, such as hand-held radios and telephones, based on operating power. The 1982 guidelines generally excluded such devices with powers of seven watts or less. The new guidelines contain more complex and more restrictive criteria for such exclusions, with allowable power decreasing as frequency increases.

Moved and Seconded: the April 1st meeting

All officers and trustees were present except for Jim Wilson KB8GHZ.

The meeting was called to order at 7:35 p.m. at the First Church of God, on N. Lincoln Ave., by President Pam Myers N8IAK with 25 members and 5 guests. Guests for the evening were: James Lilley N8XTJ, Dallas Underwood, Phil Gizzi W5VVK; and Aaron and Brian Dicks.

Treasurer Allen Dicks W18T reported a total balance of \$3,593.46. Breakdown: CDs total \$2,473.57; First American Savings \$622.11; checking \$345.81; and \$20.88 petty cash. Expenses: Newsletter \$15.12, Doughnuts \$6.79. This is a net increase of \$123.74 over last month. The aforementioned also includes \$1,677.30 earmarked for the repeater fund.

Since January, expenses total: New Callbooks \$59.95, Refreshments \$20.37, Newsletter \$70.72, Service Charge \$6.00 for \$157.04.

COMMITTEE REPORTS

NOVICE CLASS - Larry Ashburn KE8VE reported that James Lilley has received his call; it's N8XTJ. April 6 is the last day of the class.

OLD BUSINESS

FOX HUNT - Allen W18T said the test range will be at Rodman on April 3. Bill W8ZZS, John Bray KF8ZG and Dan Mutigli N8LVO will be the foxes for the April 17 Hunt, starting at Butler Rodman at 2 p.m.

LECTURES - John WX8G said he has talked at the Lisbon club meeting and that others are planned for Mahoning Valley and the Wheeling

Hamfest.

PROGRAMS - Bill Bennett W8ZZS said Nick Miller from the National Weather Service at Youngstown is scheduled for the May meeting. June's program will be devoted to Field Day. John WX8G has the September meeting.

MALL SHOW - John has confirmed the weekend of Saturday, Sept. 18 and Sunday, Sept. 19 for the show.

DUES - Allen W18T said dues are due.

NEW BUSINESS

SKYWARN CLASSES - Don Whitaker K8OMO said mark your calendars for Tuesday, April 27 for Skywarn classes at Stark Tech. Bob Alto will be the featured speaker. For directions, use 147.12 repeater.

KEY PROGRAM - Jack Bennett W8WEN asked when the key program would be held. Things have been on hold due to K8OMO's

health.

PIECES-PARTS - John KF8ZG brought in some pieces-parts which he has for sale. All proceeds go to the club.

ANNOUNCEMENTS

Don K8OMO would like to thank everyone who participated in the tornado drill on April 23 and 24.

PROGRAM - Phil Gizzi W5VVK gave a 55-minute talk on the Akron-Canton Control Tower.

NEW MEMBER: John Moleski N8PLA. Don't forget to pay your dues!

A 5-minute break was taken at 7:58 p.m. to sell 50-50 tickets. Winner of the drawing was Dan N8LVO who won the \$15.00 split. (Thanks to Aaron and Brian Dicks for doing a nice job on the tickets!)

On a motion from Allen W18T, seconded by John WX8G the meeting adjourned at 8:10 p.m. for Phil's program.

**"Try, try again"
say the
wily ol' foxes**

Nobody caught the foxes for the April 17 AARC Fox Hunt so Dan N8LVO, Bill W8ZZS and John KF8ZG will try to out-smart the hunters again on Sat., July 17. Same time, same place for starting point.

John WX8G and Pam N8IAK were the only close ones. "If we had 5 more minutes we woulda nabbed 'em," said Pam.

"Snicker, snicker," said the foxes.

A HAM NEEDS HELP

By Gerry Wentz KC4EHT

From the Florida Skip
April 1993

Three years ago, Dave and Sharon Brower WA4NST and N4XLF were shopping for a new home and found one in Suburban Acres in Vero Beach.

Dave, who is an avid CW DXer and his wife, Sharon, a SSB DXer, were certainly aware that some neighborhoods fabricate ridiculous deed restrictions designed to prohibit various and sundry antennas.

With that in mind, Dave was careful to ensure that his new house would be free of deed restrictions and have a good location for their amateur radio station.

"We found a good deal on a nice home in Suburban Acres. We studied the papers and it didn't appear that there were any deed restrictions," Brower said.

For more than two months Dave and Sharon operated on all bands using a vertical antenna. They never received a single complaint.

It was not until the Browers erected their DXer's dream tower, a 68 foot Rohn, with a Telrex 5-element 20 meter monobander, etc. that things heated up. Suddenly there were problems with anything and everything.

Dave immediately addressed an interference complaint and had his station certified First Class by a telecommunications technician. Dave

then approached his neighbor and said he would work with him, only to be told, "That's fine, but I want that tower taken down."

Only days after the tower went up, the telephone threats started. The tower was going to be "dynamited," the caller said.

Dave then tried to reason with his neighbor. What was the problem?

"I don't like the way it looks and it's got to come down," said his friendly neighbor. The neighbor then enlisted the support of other neighbors who agreed the tower was a violation of the deed restrictions for Suburban Acres. Eventually seven households filed suit in the 19th Judicial Circuit and the Browers were served a summons in December 1990.

The case was presented before Circuit Judge Charles E. Smith of the 19th Judicial Circuit of Indian River County, FL. According to Brower, his attorneys, led by Clifford Miller, made a brilliant presentation.

However Judge Smith was not impressed. He ruled Brower's transmissions were a "noxious and offensive activity" and the appearance of the tower and antenna is an "annoyance and nuisance" to the neighborhood.

Judge Smith also ruled that the tower is a "building" that exceeds the two-story limitation ... The deed restrictions are silent about antenna support structures.

Sharon and Dave are both college graduates and have highly respectable positions in society. With a marked sense of sarcasm, Dave said, "It was like they were here first so we can't play in the sandbox."

Asked if he might move to solve the problem, Dave said, "I am more concerned about this issue and its impact on ham radio. I have spent thousands on this so far but I can't back off now. Yeah, it's easy to say

"I'll move but I'm right legally. This is a federal issue now. I have to blow \$10,000 on the appeal and I don't have a choice. I could move, but I'm right as a ham. If I don't appeal this, we are all screwed."

Today, the Browers are barred from any transmissions from their home or they will be held in contempt of court. Pending appeal, the judge has stayed his order to remove the tower and antenna.

A trust has been set up to help defray costs for the appeal. Anyone interested may send their donation to: Broward Defense Trust, James H. Laseter N4ZYX, 2716 Robin St., Ft. Pierce, FL 34982.
